MEMORANDUM FOR: Director of Security

SUBJECT : Proposed Realignment of PTOS

1. In view of the ever increasing demands upon PTOS, the diminishing resources in terms of funds and manpower being given PTOS, and to eliminate any possible duplication of effort, the present organization of PTOS was studied in depth on 22 November 1972. After considering many possible realignments to achieve maximum economy and efficiency, it was decided that the following proposed realignment most nearly achieves an optimum organization than any others examined.

- a. TD will remain as it is presently constituted.
- b. OSSD will consolidate its four area branches into two area branches and absorb the domestic survey responsibility from Physical Security Division. OSSD will relinquish its technical responsibilities to Physical Security Division.
- c. Physical Security Division will relinquish its domestic survey responsibility outside the Washington area and assume the technical responsibility now being performed by OSSD. Physical Security Division will retain a capability to support the Headquarters area with security surveys, violation programs, special investigations and support to the DCI. This responsibility will be assigned to a new Headquarters Support Branch.

d. In addition, Physical Security Division will transfer the entire Information Processing Branch and the position of Deputy Chief for Computer Services to a new staff directly responsible to the DD/PTOS which will be known as the Information Handling Security Staff.

3. This realignment will require the transfer of the four technician slots (three 11's and one 9) from OSSD to Physical Security Division. In addition, OSSD will trade one GS-14 position to Physical Security Division in return for one GS-13 position.

4. Physical Security Division will transfer one GS-13 position and two GS-12 positions to OSSD and transfer a secretary-steno slot from the current Operations Branch to PS TB.

5. The details of this proposed realignment have not been completely defined. However, it is recommended that you approve this proposed realignment in principle so that necessary refinements can be worked out with the divisions concerned, A&TS, and the Office of Personnel.
